

# MORryde Air1

AIR SUSPENSION SYSTEM

Introducing the newest in the MORryde product line – the **SINGLE AXLE AIR SUSPENSION** system.

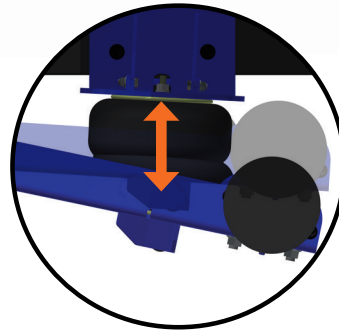

This single axle air suspension combines MORryde design with automotive technology to offer the best and latest in rough road protection for single axle trailers.

#### THE MORryde SYSTEM PROVIDES:

- Smoother, more comfortable towing
- Better protection of the trailer from damaging road shock
- Allows the trailer to glide over bumps in the road using air technology
- Activate either through a remote or an app on your smart phone

*Ability to lower and raise for different ride heights*

*For over 50 years MORryde has designed suspension systems for RVs to deal with rough roads.*

Above. Beyond. Always.
