

# RV SNAP TRAP®

Revolutionize your RV experience with the RV Snap Trap®, the industry's first and only "Snap-On" P-Trap for RV sewer hoses. This innovative solution transforms any standard 3" RV sewer hose\* into a highly effective barrier against sewer gas and pesky sewer flies. Designed for convenience, versatility, and peace of mind, the RV Snap Trap® is a must-have for hassle-free campsite living and extended gray tank valve usage.

SP54-267

## RV Snap Trap Features

- **First-of-its-Kind Innovation:** The RV Snap Trap® is the industry's only "snap-on" RV sewer hose P-trap solution.
- **Complete Protection:**
  - Provides a 100% barrier against sewer gases and sewer flies throughout the RV plumbing system.
  - A perfect P-trap every time
- **Extended Usage Support:**
  - Safely set gray tank valves to the open position for prolonged periods, enabling worry-free use of showers, sinks, washing machines, and other water appliances.
  - Prevents overfilling of gray wastewater holding tanks.
- **Adjustable Design:** Includes adjustable legs with three height settings (tall, mid, or low) or the option to remove legs entirely for customized installation.
- **User-Friendly:** Effortless to use during campsite setup and tear-down.
- **Travel-Friendly:** Compact and easy to store while on the go.
- **Simple Assembly:** Intuitive and easy to operate.
- **Perfect Pairing:** Designed to seamlessly complement the RV Residential Flush™ system.
- **Versatile Installation:** Can be installed at the beginning, middle, or end of the sewer hose run.

— Not compatible with lippert waste master hose, as its diameter exceeds 3".

Above. Beyond. Always.
